

Public Notice – Environmental Permit

PURPOSE OF NOTICE: To seek public comment and announce a public hearing on a draft amended construction permit from the Department of Environmental Quality for a major air pollution source in King and Queen County, Virginia. The public hearing/information briefing will be followed by an additional 15 day public comment period.

PUBLIC COMMENT PERIOD: December 19, 2012 to January 18, 2013

PUBLIC HEARING: King and Queen County Courts and Administrative Office Building (Hearing Room), King and Queen Court House, Virginia, on January 23, 2013 from 2:30 pm to 4:30 pm.

INFORMATION BRIEFING: King and Queen Hearing Room, January 23, 2013 from 2:00 pm to 2:30 pm.

PERMIT NAME: Major Source Amended Permit issued by DEQ, under the authority of the Air Pollution Control Board.

APPLICANT NAME: BFI Waste Systems of Virginia, LLC

REGISTRATION NUMBER: 40937

FACILITY NAME/ADDRESS: King and Queen Sanitary Landfill, 4443 Iris Road, Little Plymouth, VA 23091

PROJECT DESCRIPTION: BFI Waste Systems of Virginia, LLC has applied for an amendment to a permit to modify the capacity to combust landfill gas (LFG) at the King and Queen Sanitary Landfill. The facility is a Sanitary Landfill that must comply with Federal Standards (40 CFR 60 NSPS WWW and 40 CFR 63 MACT AAAA). The proposed amendment to the permit would allow operation of the one open, one enclosed and up to eight small solar powered flares until approximately CY 2028. The proposed facility will be classified as major source of air pollution in an attainment area. The maximum annual emissions of air pollutants from the facility flares under the proposed permit are expected to be limited to 248.5 tons per year CO; 64.5 tons per year NO_x; 18.1 tons per year each PM, PM-10 & PM-2.5; 16.3 tons per year SO_x, 5.8 tons per year NMOC and 2.3 tons per year VOC. The applicant proposes to use almost 4040 million scf per year of LFG for the two large flares, when the LFG is not being used by INGENCO. The technology used to control the air pollution from the facility flares is "good combustion practices." The estimated effect on air quality near the facility from the proposed project is to limit emissions below the Prevention of Significant Deterioration (PSD) major source threshold.

HOW TO COMMENT AND/OR REQUEST BOARD CONSIDERATION: DEQ accepts comments and requests for Board consideration by e-mail, fax or postal mail. All comments and requests must be in writing and be received by DEQ during the comment period. Submittals must include the names, mailing addresses and telephone numbers of the commenter/requester and of all persons represented by the commenter/requester. A request for Board consideration must also include: 1) The reason why Board consideration is requested. 2) A brief, informal statement regarding the nature and extent of the interest of the requester or of those represented by the requestor, including how and to what extent such interest would be directly and adversely affected by the permit. 3) Specific references, where possible, to terms and conditions of the permit with suggested revisions. Board consideration may be granted if public response is significant, based on individual requests for Board consideration, and there are substantial, disputed issues relevant to the permit.

Contact for public comments, document requests and additional information:

Mr. "Sparky" H.L. Lisle, Jr., Piedmont Regional Office, 4949A Cox Road, Glen Allen, Virginia 23060

Phone: (804) 527-5020, Email: homersparky.lisle@deq.virginia.gov, FAX: (804) 527-5106. The public may review the draft permit documents at the DEQ office named above by appointment or may request copies of the documents from the contact. The draft permit is also available on the DEQ web site at: www.deq.virginia.gov/Programs/Air/PublicNotices/AirPermits.aspx.
